Personal Preparedness

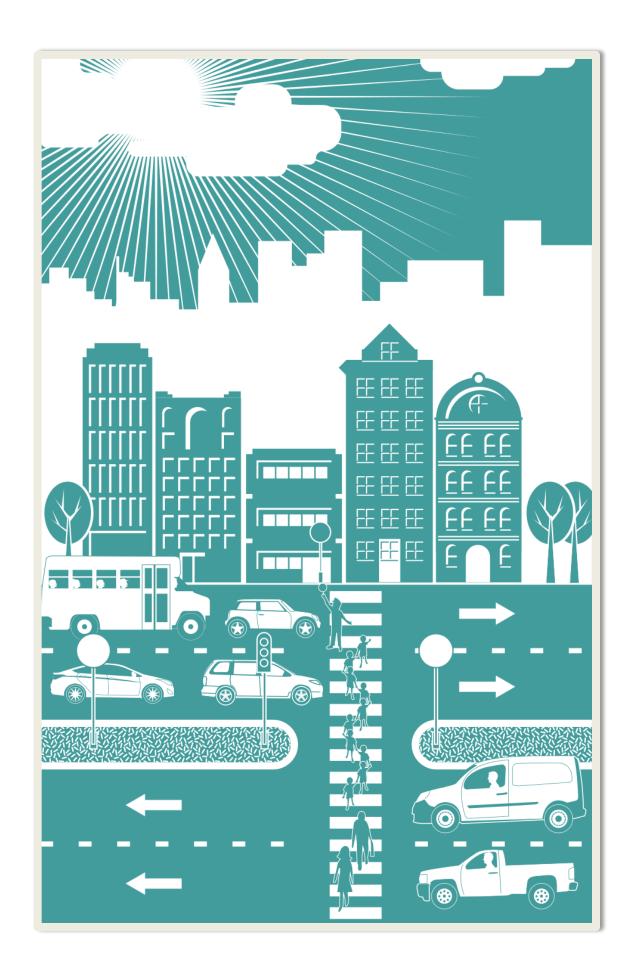

Presentation overview

Levels of responsibility

- General overview of EMO
- Levels of responsibility in emergencies
- Role of CEMCs, FOs, the PEOC and PSC

Personal preparedness

- Make emergency plans
 - Household/family communication plan
 - o Evacuation plan
 - Safety outside your home

- Build a kit
 - Emergency preparedness kit
 - o Car kit
 - Daily preparedness kit

- Be informed
 - o Alert Ready
 - Ontario's hazards

Levels of responsibility

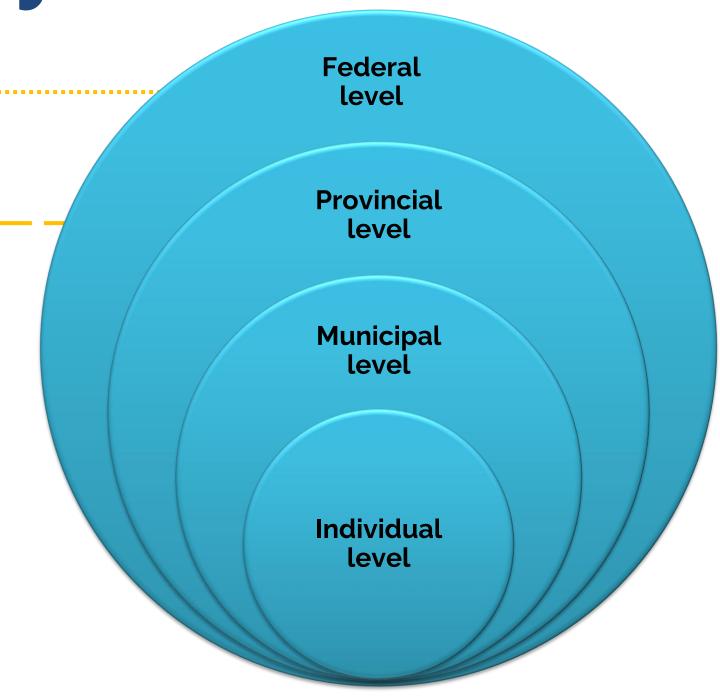

Preparedness starts with you!

Federal level

- Public Safety Canada
- Minister of Emergency Preparedness

Provincial level

- Emergency Management Ontario
- Commissioner of Emergency Management
- Regional Field Services
- Provincial Emergency Operations Centre

PSC

Public Safety Canada

- Public Safety Canada provides operational, logistic, and financial support, they are also responsible for some legislation and laws on public safety and emergency management
- Can deploy resources such as Canadian Armed Forces and Royal Canadian Mounted Police to support municipalities, provinces, territories, and Indigenous communities
- National Public Alerting System, branded as "Alert Ready" broadcasts to TV, radio and wireless devices

EMO

Emergency Management Ontario

Field Officers (FOs)

- Regional Field Services
 Team, 28 members and team leads.
- Point of contact for the communities in a region to receive support and work on compliance reporting

Provincial Emergency Operations Centre (PEOC)

- Staffed 24/7 by Duty Officers
- Members of all groups meet here to help support emergency response
- Monitor, identify and assess potential impacts to Ontario

Levels of responsibility

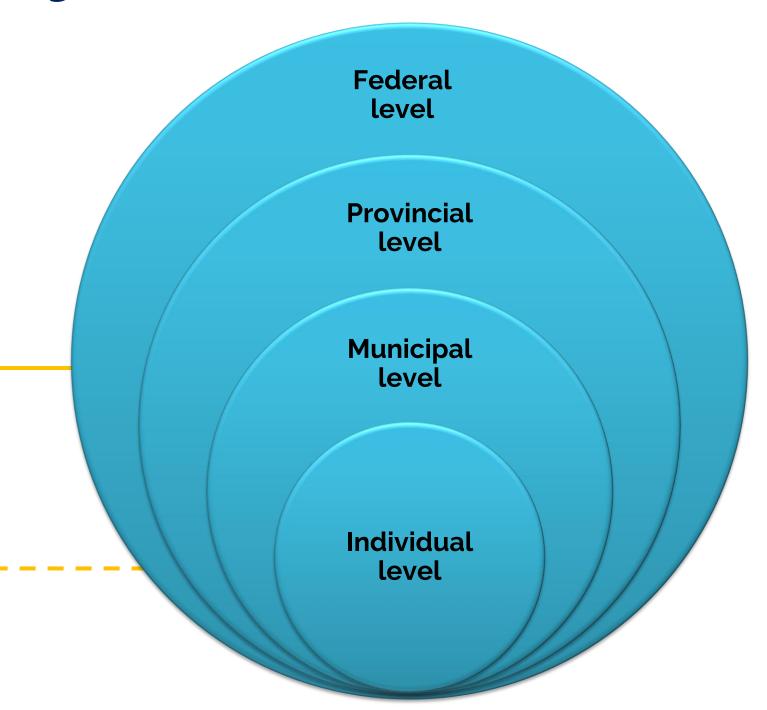

Preparedness starts with you!

Municipal level

- Emergency services
- Community Emergency Management Coordinator

Individual level -----

- Personal preparedness
- Emergency plans
- Emergency preparedness kit
- Support for those with additional needs

Community Emergency Management Coordinator

Builds and maintains the community emergency plan

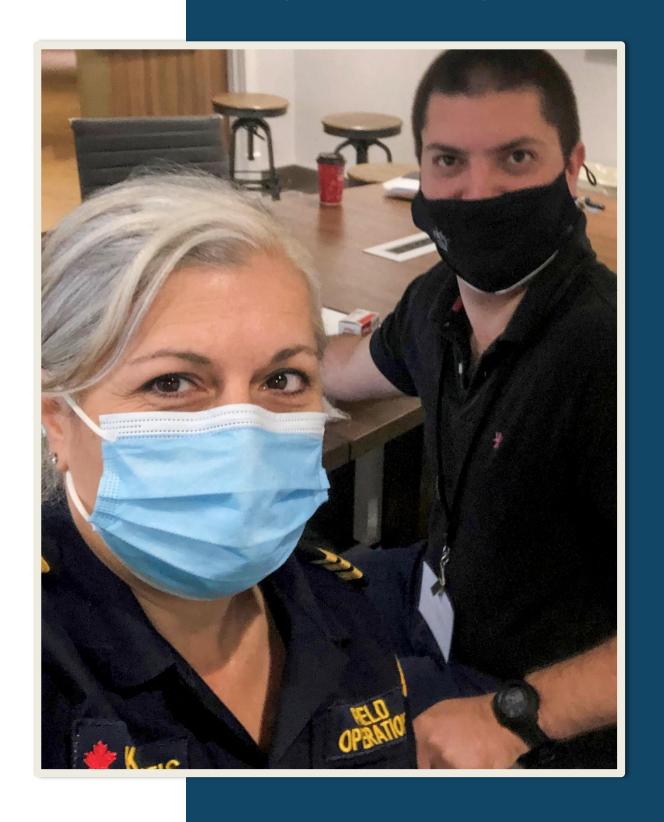

Community point of contact for the province in case of emergency

Provides advice to the mayor in times of emergency

(CEMC)

Personal preparedness

How to prepare yourself and your household

Personal preparedness can help support you at home, at work, and on the road. These three basic steps can help you support yourself and your household.

Make a plan

Build a kit

Stay informed

Audience question

Do you have an emergency plan at the office?

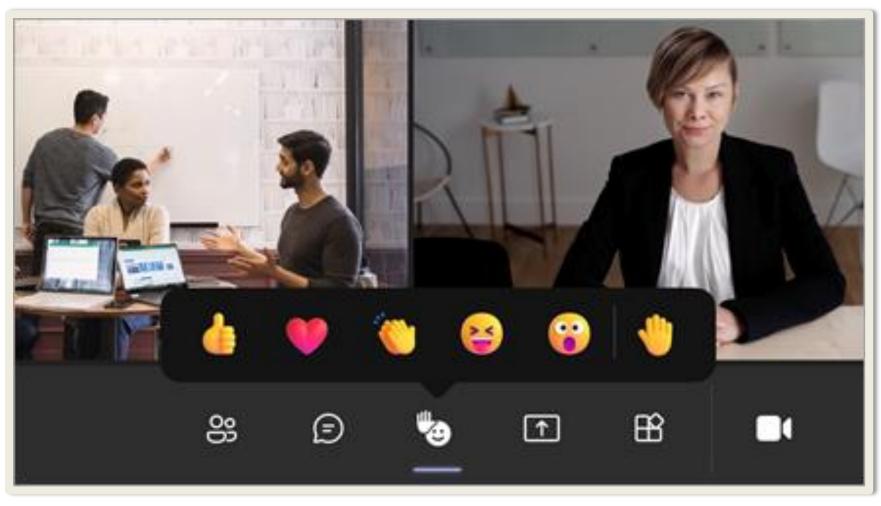

Laughter – I do not know.

Thumbs up – Yes, but I'm not very familiar with the plan.

Applause – Yes, and we have practiced it through drills or exercises.

Audience question

Do you have an emergency plan, and/or an emergency kit at home?

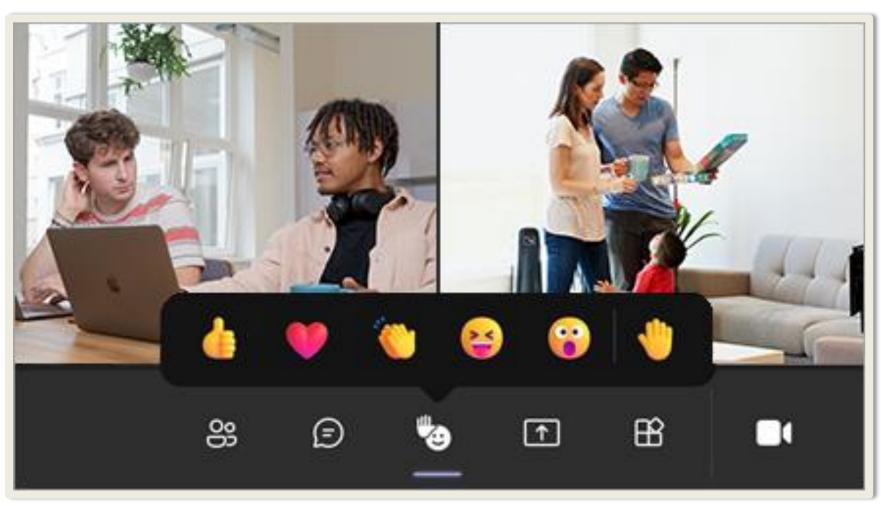

Laughter – I have neither.

Thumbs up – I have a plan OR a kit.

Applause – I have a plan AND a kit.

Emergency planning

1 Household communications plan

Discuss how to stay in contact if you are separated when the emergency strikes, discuss multiple communication platforms in case of outages.

Self-evacuation plan

Have a plan that names an out-of-area contact who will be able to support you if needed, plan two safe locations to meet (one near home, and a second outside the neighbourhood if required). Detail evacuation route.

O3 Home safety plan

Emergency numbers, fire safety, utility shut off procedure, location of important documents

Additional plan considerations

Do you have dependents such as children, family or pets? Do you have, or have a dependent who has a disability or unique, individual needs? You will need to take this into consideration when planning for an emergency.

Important documents

- Copies of birth certificates
- Copies of marriage certificates
- Passports
- Licences (driver's and other, as applicable)
- Wills
- Land deeds
- Insurance
- Health card
- SIN number

An emergency preparedness kit should have important documents, or copies of them if they are secured elsewhere.

Emergency kits

Emergency preparedness kit

Household kit for shelter in place, could be taken as an evacuation bag if required.

Daily preparedness kit

Kit that goes with you when you leave the house and includes daily and emergency preparedness essentials.

Car kit

Emergency supplies for the car, adjusted according to seasonal hazards.

Additional kit considerations

Do you have dependents such as children, family or pets? Do you have, or have a dependent who has, a disability or unique, individual needs? You will need to take this into consideration when planning for an emergency."

Audience question

Do you have an emergency preparedness kit? Or other emergency preparedness kit?

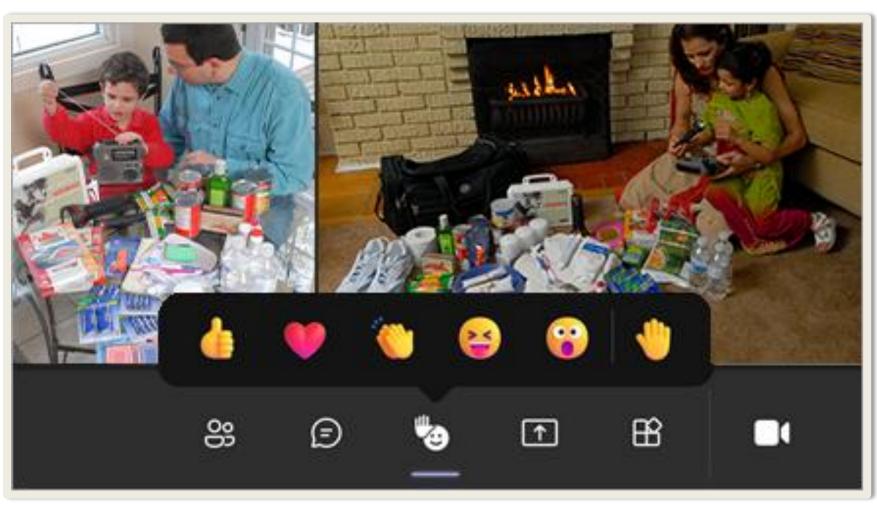

Laughter – I don't have one.

Thumbs up – I have some kind of kit, but I'm not ready for three days.

Applause – I have an emergency preparedness kit for my household.

Emergency preparedness kit

Items should be packed in a backpack or duffel bag. Items to include are listed below:

- ☐ Food and water (4L per person, per day) ☐ Manual can opener ☐ Medications, medical supplies and equipment ☐ Flashlight and glow stick ☐ Extra batteries ☐ Radio (crank or battery) ☐ First-aid kit ☐ Candles and matches/ lighter
- ☐ Hand sanitizer or moist towelettes ☐ Important documents* ☐ Extra car keys ☐ Cell phone charger and power bank ☐ Cash (small bills) **□**Whistle ☐Garbage and zip-lock bags ☐ Items for kids or pets, if applicable

Extra supplies for evacuation

□ Change of clothes and comfortable footwear (seasonal)
 □ Blankets or sleeping bags, pillows
 □ Toiletries
 □ Lightweight plates and utensils
 □ A multitool (Swiss army knife)
 □ Playing cards or games
 □ Comfort items for self, children

and pets

Car kit

Items should be packed in the trunk; a basket or duffel is useful to keep them together. Items to include are listed below:

- ☐ Flashlight ☐ Candles and matches / lighter Radio ☐ Spare batteries **□**Whistle ☐First-aid kit ☐ Cash ☐ Medications ☐ Food and water (for one day)
- ☐ Hand sanitizer, disinfecting wipes ☐Blankets or sleeping bags, pillows □Comfort items for self, children and pets ☐Pet supplies if applicable ☐Seasonal supplies – extra water in summer, snow shovel, gravel or other material for traction

Keep your gas tank at least ½ full in case of emergencies.

Stay informed

Alert Ready

Alerting system broadcasts to radio, television and compatible mobile devices.

Know Ontario's hazards

Learn about hazards in Ontario to better understand how you can prepare for emergencies.

Check the news and weather

Many of us already make ourselves aware of hazards like the weather and traffic.

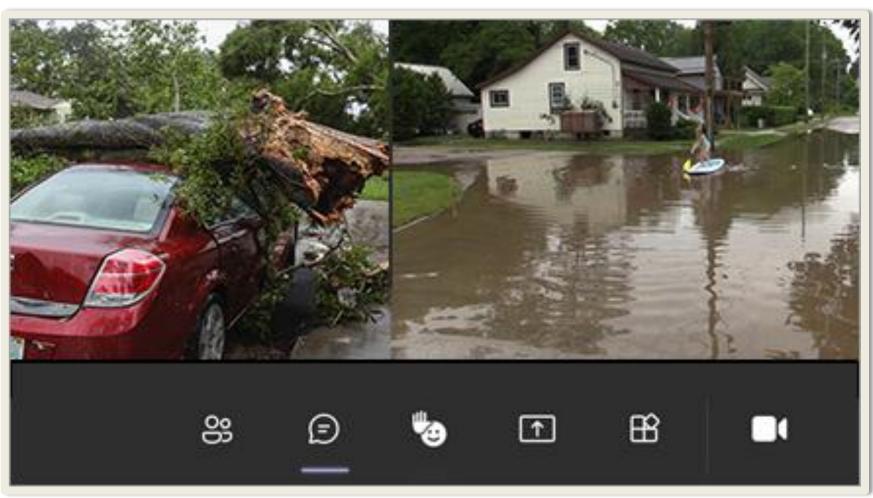

Canadian Disaster Database

Federally run database of disasters, can sort by your location to see what kind of disasters have occurred there before.

Audience question

What kind of emergencies have you experienced or heard about in your area?

(infectious disease)

Online resources

For further preparedness planning

ontario.ca/EMO & ontario.ca/BePrepared

EMO's website – information on emergency preparedness in Ontario, and ways to stay informed

Emergency preparedness action plan

Webpage that will walk you through the creation of an emergency plan for your household

Ontario's hazards

Section of the EMO website represented on the previous slide, can review all Ontario hazards here

Public Safety Canada car kit

Checklist that can be used digitally or printed to help create a car kit

Do you know what do in a tornado, flood or winter storm? Do you have everything you need during a major emergency?

This online tool will help you create an Emergency Preparedness Action Plan for your household. Your completed plan will:

- List the specific steps you need to take to get prepared
- Provide tips on hazards that might affect your community
- Include information related to special needs you may have (for example, information for people with disabilities and pet owners)

You can't predict an emergency, but you can prepare for one. Take action today!
